

Oklahoma State Department of Health

PLEASE READ THESE INSTRUCTIONS PRIOR TO COMPLETING THE QUESTIONNAIRE: The purpose of this questionnaire is to aid in describing the unclassified position in terms of its duties and responsibilities. Please use great care in completing this form so that answers give a clear and complete understanding of this job. The information provided will play a critical role in job description development and job evaluation. If there is not enough space to answer a question, please complete the answer (identified by question number) on a separate page and include it with submission of the completed questionnaire. Completion of this form should not require any research or more than an hour to complete. Skip any questions for which the answers are not known and allow the supervisor to complete those questions.

This completed form must include an accurate organizational chart reflecting this position within the Oklahoma State Department of Health. If a computer or software is not accessible for completion of an organizational chart, the chart may be hand drawn. The supervisor of this position is also an excellent resource for obtaining an organizational chart.

If there are any questions regarding completion of this form, please contact Jacqueline Pettit, Chief of Human Resources, at 405-271-9444 extension 56190 or JacquelineP@health.ok.gov.

Service Area or County Health Department:	
Supervisor (Name, Phone, E-Mail): Tina Johnson, 405-271-5585, TinaJ@health.ok.gov	PIN: 34001799

1. **Position Purpose:** Is there a job in the classified service that performs similar responsibilities?

No Yes

If yes, what position do you recommend? _____

Please continue to complete the remainder of the questionnaire.

State briefly the principal purpose or focus of this position. Describe the primary function of the position (**what** the position must accomplish) and the major objective (**why** that function is performed).

Primary Function: This position provide leadership, vision and administrative direction within the Child Guidance Service including the Warm Line, Infant and Early Childhood Mental Health Coordinator, Mental Health Consultation, Abstinence Education Grant, Child Guidance Program, Children First Program, Community Based Child Abuse Prevention, Maternal Infant Early Childhood Home Visiting Program, and Office of Child Abuse Prevention. Coordinate with other OSDH service areas such as Screening & Special Services to assure continuity across child serving programs. Develop and monitor budgets for programs under supervision responsibility. Establish and maintain official working relationships with other federal, state, local and private health systems serving infants and young children, their families, and the majority of the State's Child Abuse Prevention service efforts. Motivate and direct employees towards accomplishment of the program and organizations mission.

Major Objective: Assure that quality prevention, assessment and intervention services are available to infants and children birth to age 13 and their families across the state of Oklahoma.

2. **Service Area/County Health Department Function:** Describe the mission, role, and services provided by the service area/county health department in which this position is located.

Mission of the Child Guidance Service: Relationship focused prevention & intervention services with families and caregivers of children birth to age 13. Because children thrive within the context of healthy relationships, Child Guidance promotes optimal development, behavior and interaction for families with children.

Mission of the Family Support and Prevention Service: The Family Support & Prevention Service strives to improve the health and welfare of Oklahoma's children and reduce the incidents of child abuse and neglect by providing funding, training, technical assistance and oversight to home visitation programs; providing training to professionals working the prevention and child protection systems; educating the public and interested stakeholders about prevention strategies; and supporting the overall network of child abuse prevention at the local, state and national level.

Role: The Child Guidance Service provides direction, technical supervision and workforce development to the 57 clinicians providing services in 16 county locations. Child Guidance Central Office staff provide coordination, training and referrals to users of the DHS Child Care Warmline. Staff provide leadership through a collaborative effort with ODMHSAS to embed infant and early childhood mental health principals to all child serving settings through Oklahoma. A large part of this effort is through workforce development. This leadership position is also responsible for implementing Oklahoma's strategic plan for Infant and Early Childhood Mental Health. Staff provide monitoring and coordination for the Oklahoma Abstinence Education Grant Project. They develop grant applications, RFPs, Contracts with local entities and monitoring of awards. The AEGP are responsible for collecting data on their projects, developing reports and meeting with the federal project officer on a monthly basis. The directors employed by the Child Guidance Program provide technical assistance to local staff statewide, plan and implement workforce development activities for clinicians in their respective disciplines, formulate policies, procedures and standards for programs under their administrative responsibility, provide leadership in developing innovative strategies and public policies that address the well-being of young children (0-13) and their families. The program directors assist in the development of budget priorities to assure effective and efficient use of resources and achievement of program objectives. The Child Guidance Program Evaluator is responsible for researching, developing and implementing program evaluation measure to track program outcomes in all areas of the service area. This position is responsible for assisting in the development of an annual report and providing leadership any requested information on program outcomes.

Services Provided: Specific services provided by the Child Guidance Service Area include:

DHS Child Care Warmline: Through a collaborative agreement with DHS the Child Guidance Service is able to provide telephone consultation to child care providers throughout Oklahoma. Through a contract with McKesson the Warmline is able to also provide commonly requested information through a menu of choices. The users of the Warmline can either talk to a nurse or developmental expert or they can choose to get information through the menu items. The two FTE employed by this project operate the phone line 8-5 M-F. They also provide up to 60 presentations and workshops to various child care conferences across the state. The Coordinator of the Warmline coordinates and makes referrals to a network of providers (including Child Guidance staff) who provide Early Childhood Mental Health Consultation to DHS subsidized child care facilities across the state.

Infant and Early Childhood Mental Health Coordinator: This position was originally developed through the Governor's Transformation Grant and has been sustained through a collaborative effort with the ODMHSAS and the OSDH. The service provided through this position include statewide collaboration, representation and implementation of the Infant and Early Childhood Mental Health Strategic Plan. This position serves on numerous boards and task forces across the state, whose mission includes interests in the social emotional development of infants and toddlers. This position also spends a great deal of time in workforce development.

Abstinence Education Grant Program: This program is grant funded through the Administration of Children and Families. The staff monitor sub-awardees who are providing Abstinence based education programs to local communities. The amount of funding for this project is approximately \$1.1 million through federal and state dollars. There are a maximum of 8 project awards that can be requested through local entities. The local entities have a choice of implementing evidence-based programs from a list of three approved curricula.

Child Guidance Program: The CGP is located in 14 county health departments and through 2 contracts with OCCHD and TCCHD. Services are provided by Behavioral Health, Child Development and Speech Language Pathology clinicians for children birth to age 13 and their families. Services include: screening, assessment, intervention, educational groups for parents and care givers and treatment groups for children.

3. **Organizational Structure:** Attach an accurate organizational chart. The chart should show in detail the organizational structure above and below this position(s). Identify each position or group of positions by job title and number of incumbents. Circle this position on the organizational chart. **See attached chart**
4. **Primary Duties:** List the various duties of the job. Describe these duties so specifically that they will be clear to someone who is not familiar with the work. Please estimate the percentage of time spent performing each duty. The total of the percentages should equal 100%. If supervisory duties are assigned, be sure to describe those duties in detail as well. Please rank the duties in order of importance (most important first). Describe the work assignments over a long enough period of time to present a complete picture of the job as a whole. **Attach additional sheets if necessary.**

Examples: Prepares administrative, statistical and/or fiscal documents pertaining to departmental activity. Prepares invoices and payments of claims, requisitions, and purchase orders. Organizes activities of the administrator's office to include: screening calls and visitors, scheduling appointments, and tracking projects and deadlines.

Duty Statements	Percentage of Time Spent

- | | |
|--|--|
| <ul style="list-style-type: none"> • Monitor travel expenditures and insure compliance with state travel regulations • Coordinate and monitor contracts with other state agencies for the purpose of funding collaborative efforts. • Explore federal grant opportunities and if relevant, processing, writing and submitting federal grant applications. | |
|--|--|

Quality Improvement:

- Responsible for planning, developing, implementing and evaluating quality improvement within the Child Guidance service area.
- Assuring all program related QI is aligned with OSDH processes including performance measurement and management, OHIP, Step-Up, etc.

5. **Subordinate Positions:** Does this position supervise other employees? Yes No

If yes, do any of these employees supervise others? Yes No

List the number, job title, and name of employees this position directly supervises.

NOTE: Supervision must include approval of leave and completion of performance evaluations.

Number of Employees Supervised	Job Titles and Names of Employees Supervised	PIN
	Administrative Programs Manager Child Development: Jane Humphries	34000816
	Administrative Programs Manager Behavioral Health: Alesha Lilly	34000854
	Administrative Programs Manager Speech Language Pathology: Jeffrey Meadows,	34000790
	Administrative Programs Manager DHS Child Care Warmline: Melissa Griffin	34001521
	Administrative Programs Manager Abstinence Education Grant Program: McKay Reeves	34001405
	Administrative Program Officer: Nancy Glidden	34001401
	Administrative Program Officer: Lisa Williams	34002069
	MCH Consultant: Tina Beverage	34002612
	Administrative Programs Manager CBCAP: Sherie Trice	34001386
	Administrative Programs Manager OCAP: Suzy Gibson	34001865
	Administrative Programs Manager Children First: Connie Frederick	34002888
	Administrative Programs Manager MIECHV Grant Coordinator, Persephone Starks	34001701

6. **Subordinate Responsibility:** What is the nature and extent of the responsibility for employees under the supervision of this position?

Check all that apply to the job.

- Plan work of others
- Distribute work to others
- Check work of others

Recommend

x

Approve

- Hire new employees
- Terminate employees
- Promote employees

✓ Approve work of others	✗	Demote employees
✓ Train employees	✗	Discipline employees
✓ Evaluate performance	□	Approve leave
✓ Establish unit policy/procedure	✗	Approve pay increases

Describe the general purpose and type of work performed by employees supervised by this position.

Employees are program directors, coordinators and support staff who are responsible for managing, directing, evaluating and supervising work output.

7. **Quantitative Data:** Indicate important scope data which impacts how you do your job and demonstrates its size or effect on the organization. State all figures on an annual basis. Estimated numbers are satisfactory. This applies only to the dollar amounts for which this position has direct responsibility.

Item	Amount
Annual Operating Budget:	\$20million
Total operating budget for which you are held accountable (if any):	100%
Annual Revenues:	\$1 million (local Medicaid and Fee for Service)
Number of Subordinates:	18 FTE

Please list any other pertinent scope data below:

8. **Principal Challenges:** Describe the nature and variety of the most typical and the most complex problems this position faces as well as short- and long-term challenges.

Problems:

- Personnel: recruitment and retention of staff, supervision and mentoring,
- Fiscal: monitoring funding streams from grants, contracts and state dollars, purchasing
- Contracts: developing and monitoring contracts for services.
- Program Monitoring: assuring compliance to reorganization plan, working with administrators and local staff to make sure program goals are being implemented.

Challenges: increasing productivity and program income, retaining staff, doing more with less support, building relationships and collaborative efforts with partner agencies.

9. **Authority and Responsibility:** What types of decisions does this position have the power to make without seeking approval, as well as those which must be referred to a superior?

This position has the authority and responsibility to carry out all phases of work associated with implementing organizational policies, procedures, programs and services without seeking approval

Does this position have delegated authority or responsibility? If yes, please describe.

This position has mandated duties and responsibilities as outlined in state statute. Title 63 O.S. 1- 227 Sections 1 – 9 outlines the work related to the Office of Child Abuse Prevention; Title 63 O.S. 1- 110 outlines the work of Children First; Title 63 O.S. 1-232 outlines the work of the Shaken Baby Prevention Education Initiative Task Force; Title 63 O.S. 1-740 outlines the work related to the Alternatives-to-Abortion Services.

Who assigns work to this position (Name and Title)?

Commissioner of Health

Tina Johnson, Deputy Commissioner of Community and Family Health Services.

What aspects of the work are checked or reviewed by others?

Depending on the circumstances, the work may be reviewed by Community & Family Health Service administrative staff, local county administrators, senior leadership, the Commissioner of Health and the State Board of Health

Who checks the work upon completion (Name and Title)?

Tina Johnson, Deputy Commissioner of Community and Family Health Services

What level of supervision or direction is received in performing assigned duties (check one):

- Assignments are well detailed and well prescribed by the supervisor.
Assignments are prescribed, but the methods are not typically reviewed nor controlled while the work is in progress.
- Position is free from both technical and administrative oversight while the work is in progress.
- Position is free from active technical control in planning and carrying out work responsibilities.
- Position is provided with technical and administrative freedom to plan, develop and organize all phases of the work necessary for its completion within broad program guidelines.

What kinds of errors in judgment or performance can be made by this position?

Example: Misuse or inappropriate use of funds or failing to meet reporting requirements for grants.

Misuse or inappropriate use of funds, failing to meet reporting requirements for contracts and grants, falsifying time and leave reports, inaccurate or incomplete PMPs.

What are the consequences if such an error or mistake is made?

Example: Loss of federal funds

Loss of state and federal funds, violating state or federal law, employee grievances, EEOC complaints, office of accountability complaints, termination.

10. Key Contacts: Many positions require contact with other sources to accomplish tasks such as gathering information or ensuring coordination. These sources are considered key contacts.

What are the most significant professional contacts you have *within* the organization? Describe approximately how often per month they occur and their purpose. Consider only contacts other than your immediate superior or subordinates. Contacts may be individuals (by title) or groups (departments, task forces, committees, etc.).

<u>Contact</u>	<u>Frequency</u>	<u>Purpose</u>
Screening and Special Services	20 times	Coordinate equipment use and training for county staff
Budget & Funding	10 times	Follow up on funding for particular projects

Injury Prevention Workgroup	12 times	Task Force, make recommendations
Ethics Committee	4 times	Task Force, makes recommendations
IT	6 times	Follow up on projects, correct problems,
Records Management	6 times	Provide information and get feedback on records issues and Medicaid billing
OSDH Legal	12 times	Personnel issues, contract approval, MOA/MOU/MIC development, subpoenas
OSDH Human Resources	12 times	Recruitment, hiring, employee discipline problems

What (by title or group) are the most significant job related contacts you have *outside* the organization? (i.e., vendors, trade associations, members, etc.).

<u>Contact</u>	<u>Frequency</u>	<u>Purpose</u>
Directors of Speech and Hearing Programs in State Health and Welfare Agencies (DSHPSHWA)	Monthly	Board of directors conference call
OPHA Behavioral Health Caucus	Quarterly	Planning & Development
Oklahoma Speech/Language/Hearing Assoc.	Quarterly	Board of directors meeting
Joint Committee on Infant Hearing	Quarterly	Conference Calls and Yearly meeting. Developing best practice guidelines and statements for those working with infants with hearing loss.
Child Health Advisory Task Force	Bi-Monthly	Support staff, attendee
Smart Start Oklahoma: Literacy Committee	Monthly	Task force for literacy issues
Oklahoma Partnership for School Readiness	Monthly	Support staff, attendee
ACF Project Manager	Monthly	Conference calls for AEGP

11. **Technology and Confidentiality:** Does this position require advanced knowledge of any specialized software programs? (i.e. Word, Excel, Access, etc.) If so, please list programs and how knowledge is applied.
- Microsoft Word—used daily for communication, reports
- Microsoft Excel—used for data analysis, financial analysis, budgets, expenditures, tables and graphs
- PHOCIS—used for reporting purposes
- Outlook—used daily for email, appointments, tracking, contacts
- PowerPoint—used for presentations
- Web Meeting Programs—used to communicate with partners in other states regarding common projects
- Webinars—used to receive access to information and presentations on a variety of topics.

Discussion Boards—used to distribute information to staff, receive information from partners

Does this position have access to sensitive or confidential information? (i.e. protected health information, financials, etc.) If so, please explain the nature of this access.

This position has access to protected healthcare information (clients and employees), child abuse reporting information, information regarding legal actions, information regarding personnel action, information regarding EEOC complaints and grievances.

12. Minimum Qualifications: What education is required to be fully competent in the job?

- High School
- Associate Degree
- Bachelors Degree
- Masters Degree
- Other Degree (Ph.D., JD, etc.): _____
- License or Certification (CPA, CCP, etc.)

What experience is required to be fully competent in the job?

- Up to 1 year experience
- 2 to 4 years
- 5 to 7 years
- 8 to 10 years

Beyond the minimum qualifications indicated above for education and experience, are there any preferred qualifications? Please be specific.

Extensive knowledge of public management procedures, Master's degree in a clinical field of practice, experience in project management and program planning, experience in supervisory techniques

13. Leadership Effectiveness Framework Competencies: What Leadership Effectiveness Framework competencies (adopted from the United States Office of Personnel Management) are required to be fully competent in the job (please check all that apply)?

Basic

- Decisiveness: Makes sound and well-informed decisions; perceives the impact and implications of decisions; commits to action, even in uncertain situations, in order to accomplish organizational goals; and causes change.
- Flexibility: Open to change and new information, changing conditions, or unexpected obstacles; and effectively deals with pressure and ambiguity.
- Interpersonal Skills: Considers and responds appropriately to the needs, feelings, and capabilities of others; and adapts to suit various people and situations.
- Leadership: Inspires, motivates, and guides others toward goal accomplishment; coaches, mentors, and challenges subordinates; adapts leadership styles to a variety of situations; and models high standards of honesty, integrity, trust, openness, and respect for the individual by applying these values to daily behaviors.
- Oral Communication: Expresses ideas and facts to individuals and groups effectively; makes clear and convincing oral presentations; listens to others; and facilitates an open exchange of ideas.
- Problem Solving: Identifies and analyzes complex problems; uses sound reasoning to arrive at conclusions; finds alternative solutions; and distinguishes between relevant and irrelevant information to make logical judgments.
- Self-Direction: Demonstrates belief in own abilities and ideas; is self-motivated and results-oriented; recognizes own strengths and weaknesses; and seeks feedback from others and opportunities for self-learning and development.
- Technical Competence: Understands and appropriately applies procedures, requirements, regulations, and policies related to specialized expertise; and maintains credibility with others on technical matters.
- Written Communication: Expresses facts and ideas in writing in a succinct and organized manner.

Supervisory

- × Conflict Management: Manages and resolves conflicts, confrontations, and disagreements in a constructive manner to minimize negative personal impact.
- × Human Resource Management: Empowers people by sharing power and authority; develops lower levels of leadership by pushing authority downward and outward throughout the organization; shares rewards for achievement with employees; ensures staff are appropriately selected, utilized, appraised, developed, and treated in a fair and equitable manner.
- × Influencing/Negotiating: Persuades others; develops networks and coalitions; gains cooperation from others to obtain information and accomplish goals; negotiates to find mutually acceptable solutions; and works toward consensus.
- × Managing Diverse Workforce: Sensitive to cultural, race, gender, and other diversity issues in the workforce and manages diversity appropriately.
- × Team Building: Manages group processes; encourages and facilitates cooperation, pride, trust, and group identity; fosters commitment and team spirit; and works with others to achieve goals.

Managerial

- × Client Orientation: Anticipates and meets the needs of clients; achieves quality end-products; and is committed to improving services.
- × Creative Thinking: Develops new insights into situations and applies innovative solutions to make organizational improvements; and designs and implements new or cutting-edge programs and processes.
- × Financial Management: Prepares, justifies, and/or administers the financial resources for program area; and plans, administers, and monitors expenditures to ensure cost-effective support of programs and policies.
- × Management Controls/Integrity: Assures that effective management controls are developed and maintained to ensure the integrity of the organization.
- × Planning and Evaluating: Determines objectives and strategies; coordinates with others to accomplish goals; monitors and evaluates the progress and outcomes of operational plans; and anticipates potential threats and/or opportunities.
- × Technology Management: Integrates technology into the workplace; develops strategies using new technology to manage and improve program effectiveness; and understands the impact of technological changes on the organization.

Executive

- × Building Coalitions/Communications: Ability to build coalitions internally and with other federal agencies, state and local governments, nonprofit and private sector organizations, or other entities to achieve common goals. This involves competency in the areas of oral communications, written communications, influencing/negotiating, partnering, political savvy, interpersonal skills, accountability, problem solving, decisiveness, customer service, entrepreneurship, and technical credibility.
- × Business Acumen: Ability to manage human, financial, and information resources strategically. This involves competency in the areas of financial management, human resource management, and technology management.
- × Leading Change: Ability to bring about strategic change, both within and outside the agency, to meet organizational goals. Inherent to this competency is the ability to establish an organizational vision and to implement it in a continuously changing environment. This involves competency in the areas of vision, external awareness, creativity and innovation, strategic thinking, continual learning, resilience, flexibility, and service motivation.
- × Leading People: Ability to lead people toward meeting the agency's vision, mission, and goals. Inherent to this competency is the ability to provide an inclusive workplace that fosters the development of others; facilitates cooperation and teamwork; and supports constructive resolution of conflicts. This involves competency in the areas of conflict management, cultural awareness, team building, and integrity/honesty.

14. **Core Competencies for Public Health Professionals:** What core competencies for public health professionals (adopted from the Council on Linkages) are required to be fully competent in the job (please check all that apply)?

Tier 1 competencies typically apply to entry level public health professionals that have limited experience in public health and are not in management positions. Tier 2 competencies typically apply to employees with management and/or supervisory responsibilities. Tier 3 typically competencies apply to senior managers and/or leaders of public health organizations.

Analytical/Assessment Skills

X Tier 1: Identifies the health status of populations and their related determinants of health and illness; Describes the characteristics of a population-based health problem; Uses variables that measure public health conditions; Uses methods and instruments for collecting valid and reliable quantitative and qualitative data; Identifies sources of public health data and information; Recognizes the integrity and comparability of data; Identifies gaps in data sources; Adheres to ethical principles in the collection, maintenance, use, and dissemination of data and information; Describes the public health applications of quantitative and qualitative data; Collects quantitative and qualitative community data; Uses information technology to collect, store, and retrieve data; Describes how data are used to address scientific, political, ethical, and social public health issues.

X Tier 2: Assesses the health status of populations and their related determinants of health and illness; Describes the characteristics of a population-based health problem; Generates variables that measure public health conditions; Uses methods and instruments for collecting valid and reliable quantitative and qualitative data; References sources of public health data and

information; Examines the integrity and comparability of data; Identifies gaps in data sources; Employs ethical principles in the collection, maintenance, use, and dissemination of data and information; Interprets quantitative and qualitative data; Makes community-specific inferences from quantitative and qualitative data; Uses information technology to collect, store, and retrieve data; Uses data to address scientific, political, ethical, and social public health issues.

X Tier 3: Reviews the health status of populations and their related determinants of health and illness conducted by the organization; Describes the characteristics of a population-based health problem; Evaluates variables that measure public health conditions; Critiques methods and instruments for collecting valid and reliable quantitative and qualitative data; Expands access to public health data and information; Evaluates the integrity and comparability of data; Rectifies gaps in data sources; Ensures the application of ethical principles in the collection, maintenance, use, and dissemination of data and information; Integrates the findings from quantitative and qualitative data into organizational operations; Determines community specific trends from quantitative and qualitative data; Uses information technology to collect, store, and retrieve data; Incorporates data into the resolution of scientific, political, ethical, and social public health concerns; Identifies the resources to meet community health needs.

Policy Development/Program Planning Skills

X Tier 1: Gathers information relevant to specific public health policy issues; Describes how policy options can influence public health programs; Explains the expected outcomes of policy options; Gathers information that will inform policy decisions; Describes the public health laws and regulations governing public health programs; Participates in program planning processes; Incorporates policies and procedures into program plans and structures; Identifies mechanisms to monitor and evaluate programs for their effectiveness and quality; Demonstrates the use of public health informatics practices and procedures; Applies strategies for continuous quality improvement.

X Tier 2: Analyzes information relevant to specific public health policy issues; Analyzes policy options for public health programs; Determines the feasibility and expected outcomes of policy options; Describes the implications of policy options; Uses decision analysis for policy development and program planning; Manages public health programs consistent with public health laws and regulations; Develops plans to implement policies and programs; Develops policies for organizational plans, structures, and programs; Develops mechanisms to monitor and evaluate programs for their effectiveness and quality; Incorporates public health informatics practices; Develops strategies for continuous quality improvement.

X Tier 3: Evaluates information relevant to specific public health policy issues; Decides policy options for public health organization; Critiques the feasibility and expected outcomes of various policy options; Critiques selected policy options using data and information; Determines policy for the public health organization with guidance from the organization's governing body; Critiques decision analyses that result in policy development and program planning; Ensures public health programs are consistent with public health laws and regulations; Implements plans and programs consistent with policies; Ensures the consistency of policy integration into organizational plans, procedures, structures, and programs; Critiques mechanisms to evaluate programs for their effectiveness and quality; Oversees public health informatics practices and procedures; Implements organizational and system-wide strategies for continuous quality improvement; Integrates emerging trends of the fiscal, social and political environment into public health strategic planning.

Communication Skills

X Tier 1: Identifies the health literacy of populations served; Communicates in writing and orally, in person, and through electronic means, with linguistic and cultural proficiency; Solicits community-based input from individuals and organizations; Conveys public health information using a variety of approaches; Participates in the development of demographic, statistical, programmatic and scientific presentations; Applies communication and group dynamic strategies in interactions with individuals and groups.

X Tier 2 : Assesses the health literacy of populations served; Communicates in writing and orally, in person, and through electronic means, with linguistic and cultural proficiency; Solicits input from individuals and organizations; Uses a variety of approaches to disseminate public health information; Presents demographic, statistical, programmatic, and scientific information for use by professional and lay audiences; Applies communication and group dynamic strategies in interactions with individuals and groups.

X Tier 3 : Ensures that the health literacy of populations served is considered throughout all communication strategies; Communicates in writing and orally, in person, and through electronic means, with linguistic and cultural proficiency; Ensures that the public health organization seeks input from other organizations and individuals; Ensures a variety of approaches are considered and used to disseminate public health information; Interprets demographic, statistical, programmatic, and scientific information for use by professional and lay audiences; Applies communication and group dynamic strategies in interactions with individuals and groups; Communicates the role of public health within the overall health system.

Cultural Competency Skills

X Tier 1: Incorporates strategies for interacting with persons from diverse backgrounds; Recognizes the role of cultural, social, and behavioral factors in the accessibility, availability, acceptability and delivery of public health services; Responds to diverse needs that are the result of cultural differences; Describes the dynamic forces that contribute to cultural diversity; Describes the need for a diverse public health workforce; Participates in the assessment of the cultural competence of the public health organization.

X Tier 2: Incorporates strategies for interacting with persons from diverse backgrounds; Considers the role of cultural, social, and behavioral factors in the accessibility, availability, acceptability and delivery of public health services; Responds to diverse needs that are the result of cultural differences; Explains the dynamic forces that contribute to cultural diversity; Describes the need for a diverse public health workforce; Assesses public health programs for their cultural competence.

X Tier 3: Ensures that there are strategies for interacting with persons from diverse backgrounds; Ensures the consideration of the role of cultural, social, and behavioral factors in the accessibility, availability, acceptability and delivery of public health services; Responds to diverse needs that are the result of cultural differences; Assesses the dynamic forces that contribute to cultural diversity; Assesses the need for a diverse public health workforce; Assesses the public health organization for its cultural competence; Ensures the public health organization's cultural competence.

Community Dimensions of Practice Skills

X Tier 1: Recognizes community linkages and relationships among multiple factors (or determinants) affecting health; Demonstrates the capacity to work in community-based participatory research efforts; Identifies stakeholders; Collaborates with community partners to promote the health of the population; Maintains partnerships with key stakeholders; Uses group processes to advance community involvement; Describes the role of governmental and non-governmental organizations in the delivery of community health services; Identifies community assets and resources; Gathers input from the community to inform the development of public health policy and programs; Informs the public about policies, programs, and resources.

X Tier 2: Assesses community linkages and relationships among multiple factors (or determinants) affecting health; Collaborates in community-based participatory research efforts; Establishes linkages with key stakeholders; Facilitates collaboration and partnerships to ensure participation of key stakeholders; Maintains partnerships with key stakeholders; Uses group processes to advance community involvement; Distinguishes the role of governmental and non-governmental organizations in the delivery of community health services; Negotiates for the use of community assets and resources; Uses community input when developing public health policies and programs; Promotes public health policies, programs, and resources.

X Tier 3: Evaluates the community linkages and relationships among multiple factors (or determinants) affecting health; Encourages community-based participatory research efforts within the public health organization; Establishes linkages with key stakeholders; Ensures the collaboration and partnerships of key stakeholders through the development of formal and informal agreements; Maintains partnerships with key stakeholders; Uses group processes to advance community involvement; Integrates the role of governmental and non-governmental organizations in the delivery of community health services; Negotiates for the use of community assets and resources through MOUs and other formal and informal agreements; Ensures community input when developing public health policies and programs; Defends public health policies, programs, and resources; Evaluates the effectiveness of community engagement strategies on public health policies, programs, and resources.

Public Health Sciences Skills
